Oh, My Back!

That's a common expression and has a world of meaning. How much suffering is summed up in it.

The singular thing about it is, that pain in the back is occasioned by so many things. May be caused by kidney disease, liver complaint, consumption, cold, rheumatism, dyspepsia, overwork, nervous debility, &c.

Whatever the cause, don't neglect it. Something is wrong and needs prompt attention. No medicine has yet been discovered that will so quickly and surely cure such diseases as Brown's Iron Bitters, and it does this by commencing at the foundation, and making the blood pure and rich.

Wm. P. Marshall, of Logansport, Indiana, writes: "My wife has for many years been troubled from pain in her back and general debility incident to her sex. She has taken one bottle of Brown's Iron Bitters, and I can truthfully say that she has been so much benefited that she pronounces it the only remedy of many medicines she has tried."

Leading physicians and clergymen use and recommend Brown's Iron Bitters. It has cured others suffering as you are, and it will cure you.

ODDITIES.

Most men are mealy-mouthed about three times a day.

The only person you can take sauce from is the cook.

The favorite game with blacksmiths is said to be old sledge.

If you wish to know the sense of the meeting, pass around the hat.

"Vertical travel" is the latest euphemism for dynamite explosions.

Don't be in a hurry. It is all nonsense to look for a needle in a haystack.

Cheek in a man is decidedly objectionable, but in women—who ever saw enough?

His name was Foote. He was a grave digger. One foot in the grave. Do you see it?

The man who smokes will come to a bad end, that is if he pulls on a five-cent cigar long enough.

"It was pitched without," remarked a clergyman having Noah's ark for his theme, and an old baseball player, who had been calmly slumbering, awoke with a start and yelled "fool!" The first base from the choir came down and put him out.

In the opinion of the Boston Globe, it is said to observe how many youths of 100, 102, 104, 106, 108 and 110 years old, respectively, the paragraphs are killing without interviewing them as to the quantity of liquor they have consumed, and thus been hurried to premature graves.

A Mystified Traveler.
"Are we on a down grade?" asked an impetuous passenger, gazing first at the conductor and then earnestly out of the window.

"No, sir," replied the conductor, coldly. "This is a perfectly level track. There are no grades on this road."

"That's curious," mumbled the passenger, opening the ear window and sticking his head out.

"If anything," continued the conductor, exasperated by the man's conduct, "if anything, we're going up a slight incline."

"That's wonderful!" exclaimed the passenger. "I thought it was remarkable if we were on a down grade, but under the circumstances it's marvellous."

"What is?" growled the conductor. "What are you talking about, anyhow?"

"I simply can't understand how that cow should beat us up the hill, that's all," sighed the impetuous passenger, sinking back into his seat in figure.

The Night Watch.

New York.—Mr. Charles T. Hollis of the New York Club Stables says that he is night-watchman, and one night was attacked by rheumatism so acute he could only get down stairs on his hands and knees. St. Jacobs Oil was applied twice. After this he took his watch again the next night, cured.

No Trouble to Swallow.
Dr. Fiebig's "Pill" (the original "little liver pill") and no pain or griping. Cure sick or bilious headache, sour stomach, and cleanse the system and bowels. Only 25 cents a vial.

When Ladies Are Attractive.
All ladies know their faces are most attractive when free from pimples, freckles, and blotches. Dr. Fiebig's "Pill" cures all these and makes the face glow with health.

Puny, weak, and sickly children are made healthy and strong by using Brown's Iron Bitters.

An attractive, youthful appearance secured by using Parker's Hair Balm to all who are getting gray.

The finest brand of Kelly's celebrated Key West Cigars are to be had at John F. Myers' Drug Store on Virginia street, next to Barnett's.

For cheap Drugs, Toilet Articles, Patent Medicines, Perfumery, etc., call at John F. Myers' Drug Store, Virginia street, next to Barnett's.

THOSE WOMEN FOLK.

How Hard-Headed Men Estimate Some Things Which They Don't Understand.

Anybody who has led a domestic life knows how common such things as the backache and pains in the chest are among the women who do the work. Often, and perhaps generally, the distresses are borne without much complaint. The women get about as the machinery of the house goes on. Beyond this, those coarse-grained animals whom New England women call "the men folks," without look. So long as their wives or daughters are not actually in bed, under the doctor's care, the average thick-skinned husband and father gives the subject no attention. At the same time the poor household drudges, who deserve a better fate, creep around, broom or utensils in hand, up stairs, down stairs and out of doors, doing that woman's work which "is never done."

Losses of loved wives and daughters—losses whose suddenness and unexpectedness astonish those wooden-headed husbands and fathers—fall, seemingly out of a clear sky, and form the logical sequel to the story of neglect.

Now, you men who stand at the heads of ten thousand such homes, allow us to drop a word in your receptive ears. If these women of yours are worth having, they are worth saving. That backache—that pain in the chest—what are they but indications of some organic trouble of the kidneys, the heart or the lungs? End it at once by the application of BENSON'S CAPSICUM POROUS PLASTER. It will soothe that nervous distress, drive away that pain, banish that dull, weary backache, give new strength to the body and fresh hope to the heart. No other plaster will do this. The Benson's plaster, however, is not made to sell, but to heal. It is a remedy which never yet broke its promise and never will.

EDITORIAL NOTES.

There is employment for our army only on the frontiers, and when it has been properly divided between the forts its mission has been accomplished. The Omaha Bee says that Fort Thornburg is to be abandoned, Fort Bridger becomes a six company post, and the forces in the department of the Platte are increased by the Fourteenth Infantry, which will make its headquarters at Sidney until later in the fall. The Ninth Infantry will go to Fort Bridger, where Colonel Mason will assume command until further orders.

Before cutting a man's head off in China the authorities considerately make him drunk. The editor of the Rochester Post-Express, who knows what he is talking about, says: "The beauty of this system is that a man can get intoxicated without having a head on him the next morning."

A good example of extraordinary profits in farming is found in the case of a Los Angeles man, who last year bought 100 acres of land at \$40 per acre, plowed and planted it to alfalfa, and will this year cut three crops worth \$40 an acre, or just the price of the land, and next year he expects \$80 an acre.

The National Republican committee will meet in Washington on the 12th of December next, to fix the date and place for holding the Presidential convention of 1884.

Bombardment of Tamatava.

LONDON, June 20.
 With reference to Admiral Ferrer's dispatch announcing the capture of Tamatava, Malagassy envoys state the demands of the French were preposterous. They knew the ultimatum would be rejected. The Queen of Madagascar gave stringent orders not to return the French fire. She recalled the most of her troops to the capital and only 200 remained at Tamatava to maintain order. Tamatava is defended merely by one old mud fort, mounting four old muzzle-loading guns. The Queen is now shut off from foreign powers. It will take the French five months to march to the capital. There is sufficient food in the capital for a siege of several months. The Queen has there over 6,000 disciplined troops, the most of whom are armed with Remington rifles. The natives will fight to the bitter end. Meanwhile it is hoped that powers will intervene. Envoys regard the bombardment of Tamatava as a wanton and a cruel act. They fear that many foreign residents of Tamatava were killed.

Following Our Example.

LONDON, June 20.
 The Prince of Wales yesterday read a paper written by the Duke of Edinburgh, before the Fisheries Conference, which contained the statement that in view of the diminutive fish supply in Europe, the example of the American Government, which donated a sum annually for the breeding of sea fish, as one well worthy of imitation by the European powers.

German War Ships Burned.

AMSTERDAM, June 20.
 There was an extensive fire in the Royal dock yard here to-day. Man-of-war Doggerbank was destroyed and man-of-war Kortenaar considerably damaged. Loss between three and four million florins. The origin of the fire is unknown. A fireman was killed while trying to extinguish the flames and three others injured.

An Important Decision.

MONTREAL, June 20.
 The Supreme Court has decided in the case of Lardonia Lionais, executor of his wife's will, had no right to endorse notes for his son who subsequently failed. A number of local banks which have discounted notes aggregating one million dollars are likely to lose their advances.

—It is said that Haverly, the theater man, is not "broke," but merely knocked out temporarily. He proposes to make a great deal of money next year with his traveling shows.

[PRESS DISPATCHES TO THE GAZETTE.]

Devo's Sentence.

NEW YORK, June 19.
 John Devo, the editor of the Irish Nation, convicted yesterday of libeling August Belmont, was sentenced to 60 days' imprisonment in the penitentiary. When Devo was asked, "What have you to say why the sentence of the court should not be pronounced upon you," he answered: "In the course of the short speech by the gentlemen who conducted the prosecution he said he was doing it on the part of the people, and to a mere layman like me it seemed a great deal out of place that the sole object of the prosecution should be the vindication of Belmont. I claim that the verdict did not vindicate Belmont, but simply the law, and has shown that I was less careful than I should have been had I known the law better. It has left Belmont, with regard to this fund exactly where it stood before these proceedings began. It does not prevent me from discharging any duty, either as a public journalist or as an Irish Nationalist, that Belmont's conduct may demand of me. I ask no favor of Belmont. I owe nothing to him, and I hope whatever Your Honor does will be in consequence of the merits of the case, and not upon the recommendation made by Belmont's counsel. At the close of these proceedings I will hold Belmont responsible. Whether legally or not, I shall hold him morally responsible for the loss of that money—responsible to the Irish people, just as much as when John O'Mahoney went to his grave, and in any action that may be necessary to take in the future, I will not feel deterred from trying to get that money restored. In writing that article I was not actuated by malice. I regret nothing that I had said, and I retract nothing, but I wish my language had been more temperate."

The Chicago Regatta.

CHICAGO, June 20.
 Sixteen of the noted oarsmen of the country have already arrived to take part in the regatta at Pullman Friday and Saturday of this week. They comprise one of the finest fields of rowers that ever assembled in the United States for contest. Hanlan, the champion of the world, will contest in both single and double scull races, his companion in the double scull race being Lee Hanlan is in fine condition, but it is asserted that he will have to row to hold first place, as some of the 15 are known to be in most excellent condition, and are liable to press him.

The Peril of the Sea.

PROVINCETOWN, MASS., June 20.
 Mate Dunham, and six or eight others of the crew of the whaling schooner Ellen Rizpot were lost on its last whaling voyage. The captain's and mate's boats struck a whale at the same time, and the mate's line becoming foul his boat was dragged under and was never seen afterwards.

The New Hampshire Senatorship.

CONCORD, June 19.
 The first ballot in the House resulted as follows: Whole number, 305; necessary for a choice, 153; Rollins, 117; Harry Bingham, 115; James F. Briggs, 27; James W. Patterson, 20; Gilman Marston, 9; Charles H. Bell, 1; M. W. Tappan, 1; Aaron F. Stevens, 15.

Frank James, the Missouri Bandit.

GALLATIN, Mo., June 20.
 The cases against Frank James, for murder, his connection with the Gallatin bank robbery, fourteen years ago, and Winsted train robbery in 1881, was called to-day, and, upon application of the defense, was continued until August 20th.

A Severe Storm.

KANSAS CITY, March 20.
 A Times special from Medicine Lodge, Kansas, 250 miles south-west of here, near the line of the Territory, says the severest hail storm ever known in that section occurred last night. Meagre reports indicate that much damage was done to stock.

Indian Territory Raiders.

WASHINGTON, June 19.
 The Secretary of War has informed Secretary Teller that the military have taken all necessary precaution to expel Captain Payne, in the event of another raid by his party upon Oklahoma lands in Indian Territory.

A Railroad Fatality.

ALBANY, June 19.
 John Wallace, master mechanic, and Wm. Haylor, yardmaster, were repairing the track under a freight car, and owing to a misplaced switch the train ran into them, killing both.

A Disastrous Flood.

OMAHA, June 20.
 The extent of the damage by inundation in Cass, Oteve, New Maho, Johnson, Richardson, Pawnee and other counties in southeastern Nebraska, and by the unprecedented rainfall of Saturday night there are no means of gaining definite information, owing to mail and telegraphic communication being suspended. Crops have been injured or destroyed. Considerable live stock has been drowned; bridges

washed away, and railroads washed out. The water is said to be now falling fast. Cass county has lost fifty bridges, and the crops badly damaged. Oteve county's loss in the same way is estimated at from \$50,000 to \$100,000. In Johnson county a large number of cattle and hogs were drowned, and bridges washed out and crops damaged. The southern part of Tecumseh was under water. This same condition of affairs exist in Richardson and Pawnee counties. The St. Joe and Western railway lost 13 bridges between St. Joe and Grand Island. It will take some time to make the repairs which were begun to-day. All Nebraska trains out of Nebraska are laid up. The Missouri Pacific is washed out near Ashburn Falls and Hiawatha, and no trains are running. The Atchison and Nebraska road is laid up. It has several bridges out. The Nebraska Railway track is washed out in various places on the main line and Northwestern Branch. No trains are running on the Kansas City, St. Joe and Council Bluffs which is yet under water. Washash trains for St. Louis left Omaha this afternoon, their trouble in Missouri having ended. Fatalities reported are a son of J. Wood, drowned in Labelle creek; D. G. Smith, drowned at South Auburn; an unknown man drowned at Dunbar and a man named Chess fatally injured at Albrion. The river at Omaha is ten feet and six inches above low water mark.

General Sherman's Western Visit.

WASHINGTON, June 20.
 General Sherman, accompanied by Tidball of his staff, left here this morning for Buffalo, where he will be joined by Chief Justice Waite and Justice Gray, and will start on their trip across the continent, along the boundary of the United States. They will make an inspection of all the military posts en route. General Sherman would have postponed his departure until after the funeral of General Ewing, but one day's delay in starting would have disarranged all their plans throughout the entire trip, which has been carefully mapped out, with dates for arrivals at certain points, and escorts have been provided to meet the party along the route.

Homeopaths in Council.

BUFFALO, June 20.
 The 40th anniversary and 36th session of the American Institute of Homeopathy convened at Niagara Falls this morning. The proceedings opened with prayer. President B. W. Jameson delivered the annual address, briefly reviewing the progress of medicine during the past year, the status of the School of Homeopathy, and presented suggestions for consideration to the Institute. The reports showed a most healthful condition of the school. Adjourned till Wednesday.

The Missouri Floods.

KANSAS CITY, June 20.
 The river is still rising slowly. At 3 p. m. it stood 23 feet and 5 inches. The Kaw, which was on a stand yesterday, is rising slowly to-day. No further damage of importance is reported.

St. Louis, June 20.

The water has risen four inches, but no material destruction to property has yet been reported.

The Wason Court Martial.

WASHINGTON, June 20.
 The findings of the Wason Court martial has been received by the Judge Advocate General. The result has not yet been made known, but it is thought that the sentence is at least dismissal; otherwise the Department commander would have acted upon it.

A Paper Firm in Trouble.

ST. LOUIS, June 20.
 The Williamson & Alworth Paper Co. have made an assignment to J. P. White. Assets \$152,000, subject to a deed of trust of nearly \$100,000.

The Frenchman Waxed Again.

HARTFORD, June 20.
 The cushion-carom game of billiards between Vignaux and Shaefer, of 500 points for \$400, was won by Shaefer, after several brilliant runs. Shaefer's highest run was 70, and Vignaux 38.

The Quaker Policy No Longer Tolerable.

SAN FRANCISCO, June 20.
 In an interview yesterday with H. N. Van Arman, Secretary of Arizona, he stated that it is estimated that Jub and fifty bucks are still at large. It is believed that Charley McComas has been killed by them. He said it is probable that the leading chiefs will be tried by Court-martial, and the Mexican governors of Chihuahua and Sonora will demand the extradition of the other bucks captured. In conclusion he said: "One thing you may believe. The Quaker Indian policy is no longer tolerable in Arizona and New Mexico."

A San Francisco Blaze.

SAN FRANCISCO, June 20.
 The building known as the Morton House, on Post, between Kearney and Dupont streets, was destroyed by fire early this morning. It was occupied by O'Conner, Moffatt & Co.'s dry goods house, the Olympic Club billiard parlor, and partly rented as offices. The losses are variously estimated at from \$250,000 to \$400,000, which is believed to be fully covered by insurance. The building was owned by Edward Barron. The fire originated in the card room of the Olympic club.

A Pork Packer's Gift.

MILWAUKEE, June 20.
 Frederick Layton, a pork packer of wealth, has determined to build an Art Gallery at a cost of \$100,000, and present it to the city. There will be no conditions attached to the gift.

A Fresno Fire.

FRESNO, Cal., June 20.
 A destructive fire occurred here at 2 o'clock this morning, and 10 buildings were burned; loss about \$70,000.

—A dispatch from Mataram, Java, states that the Dutch schooner which is ashore at Pratt Island was boarded by Chinese fishermen, who robbed the vessel of all valuables and threatened the crew with spears and daggers. One boat reached Hong Kong for assistance and the British gun boat Swift has been ordered to the rescue.

PERSONALS.

Wm. Reilly and family, returned home to Long Valley to-day.

Capt. Geo. Clinch of Virginia City registered at the Golden Eagle last night.

Herbert Thrall, now mail agent on the C. P., took a look around town last night to see old friends.

Dr. Hegan was last evening called to go to Brown's Station, on the V. & T. R. R., to see a sick child there.

David Harlan accompanied J. V. McCurdy to-day to Spring City to work for the Paradise Valley Mining Company.

Nelson Light, alias "Boss," the wood sawyer, has bought the house and lot on Fourth street, next door east of Coffin's residence, for \$600.

District Attorney Stevens of Storey, accompanied by his wife, came down from Virginia to attend the Seminary commencement exercises to-day.

Mrs. Perkins and Miss Lizzie Kyle have gone to San Francisco. Miss Kyle has been visiting here the past two months, and has made many friends.

George Wimer, father of Mrs. John Q. Cannon, Mrs. James Ferguson and Wm. Wimer of the Palace, is in town from Modoc county, his first visit for some years.

This is the 57th anniversary of the birth day of A. H. Barnes, proprietor of the Golden Eagle. Thirty years ago the doctors said he was dead, yet he is a better man to-day than ever before.

Frank C. Dickinson cut a few flourishes on the streets of Reno to-day with his team loaded with, etc., for his ranch, including several able-bodied-looking men, presumably to work in the hay field.

Nothing builds up shattered constitutions so quickly as Brown's Iron Bitters.

Prosperous Times.

A. K. Lamb came in from Douglas county last night. He says there never was a time when the crops looked so promising and the farmers felt so well. There is a general prosperity all over there. Coming through Washoe Valley he stopped and examined the trees in Joe Frey's, Wm. Thompson's and Captain Dal's orchards that were girdled with a hatchet in the hands of some vandal one night last winter. He says they covered the cuts and he thinks they will all live. They are fine apple trees and all are now full of apples, and both leaves and fruit look as well as though not cut. Thompson painted the cuts over with thick paint. Frey put beeswax and tallow on and then banded them.

Good Definition.

A Reno class was asked the other day what the word "responsibility" meant. One little hand shot up and the teacher told the boy below it to answer. He straightened up and said: "If one suspender button is gone there is a great responsibility on the other."

Brick Work.

Attention is called to the advertisement of P. and J. Burke, bricklayers and stone-masons. Messrs. Burke have the reputation of invariably giving entire satisfaction in all work in their line, and will promptly attend to any order sent them.

EXPLOSIVES.

Mistaken Ideas as to Their Destructive Effects.

Since the development of the dynamite plot in London greatly exaggerated statements have been published in the English papers as to the destructive effects of exploded nitro-glycerine and dynamite. The manager of Nobel's Explosives Company, in a letter to the London Times, gives some interesting facts and statistics as to the precise force exercised by these compounds, which ought to have a quieting effect upon the nerves of our British cousins. The entire amount of nitro-glycerine found with the "dynamite fiends" was but 150 pounds. A London paper has made the absurd statement that this amount was sufficient to blow up the whole of London. Says the Bodle Free Press:

In the explosion of the Standard Company's magazine which occurred in Bodle in 1879 five tons of giant powder were exploded, in which there was doubtless over ten times the amount of nitro-glycerine in the possession of Gallagher, Whitehead and the rest. The explosion threw rocks and earth into the air several hundred feet, and the noise was distinctly heard in Bridgeport 20 miles distant, and even further away. The damage, however, was confined to the immediate neighborhood of the magazine, and a quarter of a mile distant nothing more serious than the breaking of windows occurred. Nitro-glycerine exerts a power thirteen times as great as ordinary black powder, and is sufficiently dangerous, but it would take a long time to blow up the city of London even though there were no police to guard it, and it were the ardent wish of its citizens that it should be demolished.

ST. MARY'S ACADEMY.

Successful Conclusion of the Commencement Exercises.

The Sisters of St. Dominic have every reason to feel proud of the young ladies who have been attending Mt. St. Mary's Academy. The closing exercises were very interesting. A large and appreciative audience attended the commencement exercises last evening, and went away highly pleased with the entertainment given them.

The singing by Miss Katie Biggs was perfectly entrancing. The singing by Miss Ella Monchamp of Cedarville was also very good, and heartily applauded. The composition by the same young lady was much commended. The valedictory by Miss Genevieve Hutchinson was excellent, and showed that her mind had been carefully trained and directed. The GAZETTE would like to give her production a place in its columns, but lack of space prevents. At the close of the exercises the graduates and undergraduates were presented with medals. The undergraduates each received a beautiful silver monogram with pin attachment. The graduating class were presented with gold medals in the shape of a scroll. The scrolls were inscribed: "Graduate Veritas, 1883," with the name of the young lady on the pin-plate.

This term has been one of the most successful the school has ever had, and the good Sisters are deserving of all praise for their efforts in making Mt. St. Mary's Academy one of the best institutions of the kind in this State. The Academy will open on the first Monday in September.

A HANDSOME HOME.

The Opportunity of the Season—A Good Chance to Locate.

J. M. Steinberger of Long Valley offers his fine ranch, lying forty miles from Reno, on the Susanville road, at a bargain; and any man of thirty who buys it will be independently rich before he is fifty, if he is at all prudent. There is an orchard just beginning to bear that has now 600 trees, with room for ten times as many. There is a garden of 10 acres where he raises water-melons weighing 40 pounds, peas, potatoes and all the fine vegetables and berries. Below the road there is one of the best meadows in Long Valley, with grain land all that there is water for. The Nevada & Oregon Railroad will touch the field and will have a depot near. There is plenty of water, a fine climate, a strong market and big demand for every thing that can be raised, and an unlimited cattle and horse range in the mountains.

The Ancient Order of United Workmen.

CARLIN, June 18.

EDITOR GAZETTE.—J. W. Kinsley, Grand Master Workman of the A. O. U. W., installed Warren Lodge No. 18, at Carlin, Monday evening, June 18th, with 21 charter members. The following officers were elected: R. A. Kuhn, Past Master Workman; James Marshall, Master Workman; C. F. Williams, Foreman; C. W. Hollibaugh, Overseer; A. R. Shively, Recorder; W. A. Perry, Receiver; Charles Gauder, Financier; M. McCabe, Guide; M. Callahan, Inside Watchman; T. W. Fitzgerald, Outside Watchman. Mr. Kinsley next visits Elko.

Good Bread.

Dakin & McClellan's team, from Janesville, yesterday delivered 12,000 pounds of choice flour to Reno merchants.

A DISTINGUISHED VISITOR.

Johnson Sides Blown in With a Young Bannock Brave.

Johnson Sides is entertaining a sturdy young Bannock brave from Fort Hall to-day. Johnson took pleasure in waltzing his friend into the GAZETTE office this morning, and introduced him as a gentleman of sterling qualifications and worthy of the confidence and respect of his white brothers. The Bannocks seldom get this far west, but the late camp meeting at Winnemucca caught several of the representative men. He calls himself White Frost and claims to be one of the Grand Council of the tribe. He is a man of fine physique, and every line in his saddle-colored face shows him to be possessed of a character with many noble qualities. Determination is stamped upon every feature of his countenance.

White Frost will remain here the guest of Captain Johnson until the first of July. White Frost wore a fancy pair of buckskin trousers and wrapped his manly form in a very fancy blanket. The sea shells braided in his locks, the rings in his ears and nose give him a very distinguished appearance. Johnson says the several tribes between the Platte and the Pacific coast are on the most friendly terms now, and all are well satisfied with the treatment they receive from the Government. He thinks that after General Crook gets through with the Apaches no more Indian raids will be indulged in by any of the heretofore hostile tribes.

A Nice Place to Go.

The Susanville excursion came back last evening at 5 o'clock, after a delightful trip. Everybody was as hospitable as could be. The Susanville people did everything possible for their comfort and pleasure. They say Reno people make more noise on less liquor than anybody they ever saw. A special vote of thanks was made to Henry Bereman, who carried them in his carriage to several interesting places, and who entertained them in his pleasant rooms in a handsome manner. The Masonic bodies in Susanville are in a flourishing condition, and have both the ability and the inclination to receive visitors in a creditable way.

There is an interest manifested in the order there that is quite refreshing compared with that shown in Reno, where an apathy prevails that is allowing the younger societies to gather in the best material among the young men of the country. The Susanville Chapter has \$3,500 at interest and the Lodge and Commandery are both nicely fixed. The latter has 79 names of men who are a credit to the order of Knighthood.

A Good Vehicle.

Mr. Putnam, of Petaluma, has sold to A. K. Lamb the right to manufacture and sell his cart in Washoe, Ormsby, Storey, Douglas and Lyon counties. They will be manufactured at McFarlin's shop, in Reno, and sold cheap. Although it was originally designed and made for a breaking cart, it almost immediately found favor as a general business vehicle for all purposes where a light rig was wanted for driving, etc. For farm purposes and for children attending school at a distance, physicians, commercial travelers, mail-carriers, overseers of ranches, sheep-herders, livery stables, etc., and, indeed, for almost any and all purposes where cheapness, convenience and durability are concerned, this vehicle cannot be surpassed. It is light, weighing only about 200 pounds; it is easy on the horse, and with the patent foot-board very easy riding, taking the place of a buggy and saddle horse, while the price is so low as to place it within the reach of all; made either with a pole or shafts, or both.

From the Mountains.

EMIGRANT GAZ. June 17.

Editor Gazette:—The regular Summer's work has fairly got under way. The several saw-mills are at work, and jointly will turn out about 5,000,000 feet during the season.

Besides lumber, this place will ship about 500,000 sugar pine shakes, 4,000 cords of railroad wood, 400 cords of pine and cedar bolts and 10,000 railroad ties. To this will be added a number of smaller productions, such as saddle-sides, four-foot wood, etc.

To-day one of the Blue Canyon section men, while endeavoring to cross over between the cars before the train had fully stopped, got his foot caught between the bumpers and was badly bruised. XX.

A Rumor.

It has been reported here for two or three days that Dan O'Keefe was shot at Stone House, this side of Battle Mountain, by one of his companions. They had been shearing sheep for a man named Wilson. Dan received the pay for the work and gambled it off. In an altercation that followed he was shot. So report has it, but the rumor can be traced to no reliable source.

Opium Fiends Arrested.

J. A. Davis, notoriously known here, was arrested last night by officer Mershon in an opium den in Chinatown. A Chinaman was also arrested at the same time. They were just starting in on a bout with the pipe. The matter will be adjudicated by Judge Young this evening at 7 o'clock.

A NEW INVENTION.

A Chance For an Enterprising Business Man to Milk Himself Rich.

The San Francisco California Democrat (German) gives an account of the invention of an iron or steam cow. The invention is in Germany, and the name of the inventor is August Sammelkord. His occupation is given as chemist and engineer. His first effort was the construction of a 20-cow-power machine; but he is now engaged on a 1000-cow-power, and a company has been formed to prosecute the business. The cow is constructed of iron, has digestive apparatus, and chews and re-chews her cud like any other cow. She is fed with hay, grass or any other milk and butter-producing substances. It is then manipulated into milk and butter, and separated into various qualities and departments, from whence it is discharged by means of faucets, giving fresh new milk, sour milk or buttermilk, as the case may be. At another place rolls of nice fresh butter are ejected, and at still another rough refuse matter is deposited. The paper adds that in a short time it is expected that the city of Berlin will be swimming in milk from these patent cows. Ben F. Bacon of Verdi has secured the agency for Washoe county. Ben never eats butter; so he will use that part of the "cow" for making Bologna sausage. He will run one test on beer. Orders sent in will receive prompt attention.
